How to use these prompts

Each prompt is written to get a great answer on the first try. Words in **[brackets]** are where you add your own details.

1. **Copy** a prompt into any AI assistant, or into one of our free agents at usesuperintelligence.com/agents.html.
2. **Replace** every **[bracket]** with your details. The more specific you are, the better the answer.
3. **Follow up.** Ask "make it shorter", "more friendly", or "give me 3 more options". The first answer is a starting point.
4. **Check facts.** AI can make mistakes. For health, legal or money decisions, confirm with a qualified professional.

> **The secret to great AI answers:** give it a role, your situation, the exact task, and the format you want. Every prompt in this guide follows that pattern, so you'll start writing better prompts of your own too.
